Synthetic Prudential Access Control Standard — 2025.1

Fictional regulatory document for software testing only

Issuing authority

Synthetic Prudential Regulatory Authority (SPRA). This is a fictional authority created solely for this synthetic project; it is not a real regulator.

Document metadata

Regulation identity: SPACS. Version label: 2025.1. Publication date: 15 January 2025. Effective from: 1 February 2025. Effective to: 30 June 2026. Status: baseline.

Purpose

This fictional standard defines baseline access governance requirements for a bank's privileged access environment.

Section 4 — Access Review

Banks shall review privileged user access at least annually. The review shall identify inappropriate access, document management approval, and retain the review record.

Section 5 — Retention

Privileged access review records shall be retained for at least 3 years from the date of the review.

Applicability

These requirements apply to banks operating privileged access systems and to material outsourced technology providers supporting such systems.

Version relationship

Version 2025.1 is the baseline version. It is explicitly superseded by version 2026.1 of the same fictional standard, effective 1 July 2026.
